Principal engineer with 11 years building database lifecycle, security, and AI-agent platforms at scale. At Oracle/OCI, owns KMS/BYOK encryption, Data Guard/DR, and Autonomous Database operations across thousands of production databases; led three AI-agent PRDs from idea through POC. Targeting senior IC roles in distributed systems and platform engineering.

EMPLOYMENT

Oracle Inc. (OCI)	Principal Member of Technical Staff	Jul 2021 - Present
--------------------------	--	---------------------------

- Led AI-agent platform for ADP (Application Data Platform): owned three agent PRDs from idea through POC — Audit Agent, JIT Access Agent, and FA Maintenance Agent — with production-aware design, deterministic controls, and a reusable conversational UI.
 - Architected multi-surface observability platform combining OCI Audit, ExaCS logs, and database audit trails; designed read-only, RBAC-guarded audit agent answering plain-English queries with cited evidence and parameterized tool routing.
 - Own KMS/BYOK platform across encryption lifecycle, Data Guard, DR, and RODS for thousands of production ExaCS and Autonomous databases; improved safety and diagnosability in one of ADP's highest-risk workflow areas.
- Technologies: Java, Spring Boot, OCI, ExaCS, Autonomous Databases, LLM/Open AI API, Kafka, Agile.

First Republic Bank	Middleware Intern	Jun 2020 - May 2021
----------------------------	--------------------------	----------------------------

- Automated the Service Catalogue and built a Jenkins pipeline, reducing effort by 40% and time-to-delivery by 45%.
 - Set up a single-page Kafka monitoring dashboard using Prometheus and Grafana, reducing monitoring effort by 20%.
- Technologies: Ansible, Prometheus, Docker, OpenShift, Kubernetes, AWS, Confluent Kafka, Agile, Jenkins.

Dassault Systèmes	DSX Development Engineer	Jul 2018 - Jul 2019
--------------------------	---------------------------------	----------------------------

- Devised lead scoring for automated lead assignment, reducing effort by 30%; upgraded Siebel to IP 18, cutting deployment time by 20%.
 - Tailored a custom export functionality for Japanese users, now serving 10K+ agents daily.
- Technologies: Java, AWS, Siebel, EAI, JavaScript, MySQL, HTML5, Web Services (SOAP).

Bristlecone	Senior Consultant	Mar 2017 - Jul 2018
--------------------	--------------------------	----------------------------

- Designed and developed an integration for Advance Assurance Insurance that expanded after-warranty service coverage by 55%, increasing after-sales revenue by up to 20%.
 - Automated return order process, bringing return order time from 5 days to 2 hours.
- Technologies: Java, Siebel, EAI, OpenUI, JavaScript, Deployment, AWS, Web Services (SOAP), CSS, Salesforce.

Accenture Solutions	Software Engineer	Oct 2014 - Mar 2017
----------------------------	--------------------------	----------------------------

- Added FTTH order type and migration capability which enabled 1M+ customers in the first month of release.
 - Created a credit verification service that reduced report delivery from 10 minutes to 2 minutes.
- Technologies: Java, Siebel, EAI, JavaScript, MySQL, AWS, Web Services (SOAP), CSS.

SKILLS

- Programming Languages: Java, JavaScript, Python, C, Shell Scripting, Go.
- Web Technologies: React.js, Node.js, SOAP, Restful Web Services, HTML5, CSS3, Redux, Redis, GraphQL.
- Frameworks: Kafka, RedHat OpenShift, Kubernetes, Spring Boot, Express.js, Siebel, Salesforce, Hibernate, Ansible.
- Databases: MySQL, Oracle 11g, MongoDB, PostgreSQL, Cassandra
- Other: Linux, Docker, AWS, GCP, GitHub, Agile, Prometheus.

PERSONAL PROJECTS

- **HireLoop** (Java/Spring Boot, React, Claude API) — Autonomous career tracking platform with config-driven backend and pluggable LLM providers. Planned Deployment on Railway.
- **OrderAI** (MCP, React, Square POS) — Open-source AI food truck ordering system with MCP integration and Square POS, full web ordering UI.
- **Market Research Dashboard** (Claude Code, Cloudflare Workers, Google Drive API) — AI-powered personal stock dashboard; Claude Code cloud routine generates briefs written to Google Drive, served via Cloudflare Worker.

EDUCATION

San Jose State University	San Jose, CA	Aug 2019 - May 2021
----------------------------------	---------------------	----------------------------

- Master of Science in Software Engineering GPA: 3.81

HCST	Uttar Pradesh, India	Jun 2010 - May 2014
-------------	-----------------------------	----------------------------

- Bachelor of Technology in Computer Science
